

**DEPARTMENT OF GENERAL SERVICES
Telecommunications Division**

**NOTICE of AUDIO CONFERENCE BRIDGE FOR
RFP INFORMATION SESSIONS
SPECIAL ATR BULLETIN 2004-08**

Monday, December 6, 2004

The DGS-TD is holding two RFP information sessions (RFP overview and approach; Q and A) for CALNET customers and potential CALNET customers: one in Northern California (Sacramento) and one in Southern California (LA) as noted in Special ATR Bulletin 04-05 and at the end of this Bulletin.

A 30 -port, **one-way** audio conference bridge is available for both RFP Information sessions. Because it is one-way, questions from callers will not be possible. Also, because of the small capacity of the bridge, we suggest attendance in person at the session. If that is not possible, we suggest that callers team up and call from a centralized location within your respective organizations.

The conference bridge is accessible by dialing the non toll-free telephone number **203-669-1067**, followed by the **pass code number 981971**. Callers will pay the applicable toll charge.

Once the limit of 30 callers is reached, the following message will be heard: "The conference has reached capacity, please try again or contact the conference leader". There is no conference leader, so if the bridge is full, keep trying for an open port as callers disconnect.

The Sacramento session is planned for **Friday, December 10, 2004 from 1:30 PM to 3:30 PM at the DGS Auditorium** located at 707 Third Street, West Sacramento (in the pyramid building known as the ZIG). There is limited street parking and a parking garage next to the building for \$12 a day or \$2 an hour.

The LA session is planned for Wednesday, **December 15, 2004 from 10 AM to Noon at the Ronald Reagan Building Auditorium** at 300 Spring Street in LA. There is public parking around the building for \$6 a day.

If you have any questions, please contact Pauline Tsumura of the DGS Office of Network Services at 916-657-9448.
